Attention: Mr. Jamie Watts, President

Dear Jamie:

Thank you for testing Herculite's ARCHITENT reinforced tent fabrics on your Clean-A-Tent system.

Clean-A-Tent tested three styles of our product with excellent results:

1. ARCHITENT 14 ounce Yellow laminate was washed 80X with no loss of flexibility or gloss.
2. ARCHITENT 14 ounce White laminate was also washed 80X with similarly outstanding results.
3. ARCHITENT BLACKOUT 16 ounce laminate was also washed 80X, again with outstanding results.

All three styles of tent fabric performed extremely well during your rigorous testing procedure, and each of the fabrics looked "as good as new" upon completion of the 80 cycles. We were very impressed with your Clean-A-Tent system.

Thank you again for your assistance.

Best regards,

John Evans

Vice President of Sales – Industrial Fabrics
